UNCT in Numbers: Key Figures

In total
4000
mt of food

assistance was distributed while cash distributions are still ongoing. Critical life-saving food assistance was delivered to 260,000 vulnerable people.

1,910
health care
workers

A total of 1,910 health care workers in 42 health facilities were equipped with Personal Protective Equipment (70% female 30% male) while mobile and regular oxygen concentrators were distributed to 20 territorial and national hospitals.

41,400
vulnerable
families

Food or cash assistance was provided to 41,400 vulnerable families, some of whom lost income as a result of COVID-19, in exchange for skills training for better labour opportunities or creation of community assets.

1,313
patients

1,313 drug-resistant tuberculosis patients started treatment in 2020, including 489 women and 57 children.

200,000
schoolchildren
and their families

benefited from nutrition advice and cooking tips provided under the "School Meals at Home" campaign across the whole country which was complemented by take home rations of fortified wheat flour provided to 80,000 primary school children.

300
health care
providers

More than 300 health care providers were better equipped to deliver family planning services with an updated postgraduate family planning curriculum.

129
victims
of trafficking

the UN assisted 129 victims of trafficking (73 females) from Kyrgyzstan and 114 vulnerable migrants (49 females) from Kyrgyzstan to return home, and with social support and equipment to start small income generating activities.

2,985
video
lessons

Extensive technical support to ensure uninterrupted learning by establishing online learning platforms and developing 2,985 video lessons aired on television and available online during school closures.

30,000
rural community
members

UN interventions brought tangible benefits to more than 30,000 rural community members (half were women) to gain access to renewable energy sources, improve on-farm irrigation infrastructure and mitigate against natural disasters such as flooding and mudflow

1,671,519
pupils

An estimated 216,697 pre-school children, 1,180,330 schoolchildren, 109,092 vocational school students and 165,400 higher education students continued learning remotely, and at least 11,916 vulnerable children, including children with disabilities and refugee children received psychological and pedagogical support during quarantine and through remote learning.

Capacity-building

The UN further focused on strengthening agricultural production by providing online capacity building support and reaching out to 300 socially vulnerable families who were able to cultivate vegetables.

In total, 895 participants, of which 58,5 percent were women and girls and 8 target schools located in the communities most vulnerable to natural hazards gained new awareness on disaster preparedness.

The capacities of more than 1,000 penitentiary officers (46 per cent women) have been increased across a wide range of issues with a focus on human-rights-based prison management

62 healthcare specialists from primary healthcare centers improved their knowledge and skills on providing stigma free SRH services to key populations, including people living with HIV.

An E-learning course on non-discrimination and equality was made available to over 47,000 public sector employees through the portal of the State Personnel Agency

In total, 341 health facilities providing vaccination services nationwide were equipped with specialized cold chain equipment to provide the required temperature during power cut offs.

34 youth ambassadors organized 173 events themed on the SDGs that reached 12,859 people throughout Kyrgyzstan.

The Kyrgyz Republic accepted over 90% of the UPR recommendations, including recommendations on addressing discrimination against women, ethnic and other minorities.

Key indicators of the socio-economic impact of COVID-19

94%

of the micro, small and medium-sized enterprises (MSMEs) had experienced a negative impact due to the COVID-19 crisis

were individual entrepreneurs

89%

entrepreneurs had experienced a negative impact, including a drop in revenue ranging from 75 to 100% in April 2020.

had less than 50 employees

1.8 million

persons had lost earnings due to the state of emergency imposed in the country.

Remittances from labor migrants dropped by about

year-on-year for January-May 2020

34%

reported an increase in their spending on medicines

44%

of poor respondents reported an increase in their spending on food

2,319

cases of domestic violence were reported with

1,425

involving physical violence

The fluctuations in food prices and inflation during the pandemic are major factors influencing poverty rates:

price hikes of

10-15%↑

potentially led to an increase in the poverty rate by

7-11%↑

More than half of young people had experienced a decrease in income since the beginning of the crisis.
